Topics to be covered:

An overview of beekeeping from the beginning to now.

How to get started - basic equipment, hive placement and getting your bees.

The basics of bee biology – workers, drones, and queens. The social structure and colony life.

Hive management – Spring, summer, fall and overwintering.

Ohio Apiary Laws and Threats to honeybees – Pests, disease, mites, and us.

Lessons from the hive – Management mistakes by new beekeepers.

Introduction to the COBA Bee yard.

Field Day The final class will include a demonstration of installing package bees at the COBA bee yard at The Ohio State University Bee Lab on a Saturday in April. (TBD based on weather).
